PROFESSIONAL SUMMARY

Full Stack AI Engineer with 2+ years of experience building production web, mobile and agentic AI systems. Strong in **TypeScript**, **Next.js**, **Python** and **FastAPI**, with hands-on experience in multi-agent LLM pipelines, voice agents, React Native and healthcare (FHIR) apps. Open to relocation.

WORK EXPERIENCE

Remark Studio **Bahria Enclave, Islamabad**
Agentic AI Full Stack Developer May 2026 – Current

- Architected a multi-tenant CRM for a visa consultancy with **FastAPI**, **PostgreSQL** and **Next.js**, covering leads, cases, invoicing and visa decisions.
- Built an AI CV-assessment pipeline with the **OpenAI Agents SDK** and **OpenRouter** that recommends countries and generates PDF reports, with cost caps and human review.
- Built job matching across 14 job boards; secured the platform with 2FA, audit logs and **2,600+ tests**, on **GCP**.

Freelance – German Health-Tech Company **Remote, Germany**
Full Stack Engineer (Contract) Nov 2025 – Current

- Built and shipped a medication-reminder app to the App Store with **React Native**, **Expo** and **FHIR R4**, including a custom native iOS alarm module and clinician PDF reports.
- Developed a booking marketplace with **Next.js**, **MongoDB** and **Stripe**, preventing double bookings.
- Performed QA and security testing on a care-monitoring dashboard with **Playwright** across 4 user roles.

Founderflow **Remote**
Agentic AI Full Stack Engineer (Contract) May 2026 – Aug 2026

- Designed the architecture of an AI executive assistant and led prompt engineering for every agent.
- Built a multi-model agent pipeline with the **OpenAI Agents SDK**: GPT-4o analyses email, Claude Haiku 4.5 rates severity, and Gemini 3.1 Pro drafts replies.
- Re-engineered email priority scoring and built the **FastAPI** backend as a modular monolith on **GCP**.

Aptive Mind **Bahria Town Phase 4, Rawalpindi**
Full Stack Engineer Nov 2025 – Apr 2026

- Built a rental platform with **Next.js**, **Firebase** and **Stripe**: location search, calendars and admin dashboard.
- Prevented double bookings with Firestore transactions; automated payments and alerts with Cloud Functions.
- Developed an events venue website with live ticketing, cutting site size from **22 MB to 2.6 MB**.

Auroxa Tech **Innovista Rawal, DHA Phase 1, Islamabad**
Full Stack Engineer Jul 2025 – Nov 2025

- Built an AI phone agent for a water-delivery company with **Vapi** and **FastAPI** for billing and deliveries.
- Built a payment-recovery pipeline that prioritises customer outreach by call, SMS (**Twilio**) or email.
- Built an HVAC voice agent on **GoHighLevel** CRM for lead capture, booking and warm transfers.

Dot Escapist **G-13, Islamabad**
Frontend Developer Aug 2024 – Jun 2025

- Built an asset-tracking system for precast construction with **Next.js**, TypeScript and **Django REST Framework**.
- Developed searchable data tables, user management and department-based views backed by **PostgreSQL**.

Al-Basirr Technologies **NSTP, NUST, Islamabad**
Frontend Developer Intern Jun 2024 – Aug 2024

- Built the student flow of an AI study-abroad platform with **Next.js**: resume upload, profile form and results.
- Integrated a **FastAPI** and **OpenAI** backend to match students with scholarships.
